## TVFC Provider Report on Adolescent Vaccines Valley Childrens Clinic PA

TVFC PIN: TX110129

### Are Your Adolescent Patients Protected?

Routinely assessing your clinic's immunization rates and vaccine administration trends is best practice for your patients. Comparing doses of HPV administered to other adolescent vaccine doses administered in your clinic can identify missed opportunities for HPV vaccination.

Ratio of Tdap doses to  
HPV doses administered:

**1 : 2.3**

Vaccine administration  
performance:

**Excellent**

EXCELLENT ( $\geq 1: 2.0$ )  
FAIR ( $1: 1.5 - 1: 1.9$ )  
POOR ( $\leq 1: 1.4$ )

### Comparable Tdap to HPV Doses Administered Ratios

**1 : 1.6**

TEXAS

**1 : 1.6**
